

REAL ANGLERS – REAL RESULTS

We love our customers and believe in rewarding those that part with their hard earned cash in exchange for the most effective carp baits they've ever used...

We don't do free bait to mercenaries. No paid anglers who are as loyal as their latest pay cheque. No 'show ponies' in this stable. Because you're not paying for the wannabes freeloaders or super star salaries that means we can supply you with premium quality products at unbeatable prices – **ALL DELIVERED FREE OF CHARGE!** This is no temporary offer, this is our philosophy. That means you can buy 10k of any of our baits delivered for just £65 with even better prices available on bulk orders!

BAITCRAFT MONTHLY BAIT PRIZES!

To repay your loyalty, every month we give away 50k of bait split across 5 categories with entries being rolled over into the massive Baitcraft carp angler of the year award who wins 100k of bait!

Here's three such 'normal blokes' who have all caught some crackers in the last three weeks.

Norfolk Bob made a tricky, low stock lake look simple by bagging the lakes largest resident at 43lb 4oz. Even more impressive is that he has only just joined and did a grand total of 30 hours fishing for it! Bob assures us it was just luck that his first bite from the lake was the biggie but Savay Salmon does have a habit of doing that, as he well knows, having caught a lake record on it last year!

Whilst on the subject of lake records, here's another - this time on the T1. Dalie Bulman couldn't believe his eyes when this stunning common of 43lb 12oz rolled into the net. Following a huge battle with the fish weeding him up on a number of occasions and tangling his other line, Dalie was elated to catch the largest fish in the lake and set a new lake record!

And finally, here's one for the purists - Sutton's Big Fully at 40 lb 8oz. David Wellard managed to tempt this stunning old Kentish jewel on our Savay Salmon, along with a few others.

Next month it could be you.
